BOARD OF TRUSTEES

CHARLES EVANS HUGHES
Formerly Chief Justice of the United States
WALTER S. GIFFORD
President American Telephone and Telegraph Co.
WILLIAM V. PRATT
Admiral U. S. Navy, Retired
LYMAN J. BRIGGS
Director National Bureau of Standards
GEORGE R. PUTNAM
Commissioner of Lighthouses, Retired
THEODORE W. NOYES
Editor of The Evening Star
GEORGE W. HUTCHISON
Secretary National Geographic Society
L. O. COLBERT
Rear Admiral, Director, U.S. Coast and Geodetic Survey

ROBERT V. FLEMING
President and Chairman of the Board, Riggs National Bank
LEROY A. LINCOLN
President, Metropolitan Life Insurance Company
C. HART MERRIAM
Member National Academy of Sciences
DAVID FAIRCHILD
Special Agricultural Explorer, U. S. Department of Agriculture
ALEXANDER WETMORE
Assistant Secretary, Smithsonian Institution
H. H. ARNOLD
Lieutenant General, U. S. A., Deputy Chief of Staff (Air) and Chief, Army Air Forces
GILBERT GROSVENOR
Editor of National Geographic Magazine

JOHN J. PERSHING
General of the Armies of the United States
CHARLES G. DAWES
Formerly Vice-President of the United States
CHARLES F. KETTERING
President, General Motors Research Corporation
GEORGE OTIS SMITH
Formerly Director U. S. Geological Survey
ELISHA HANSON
Lawyer and Naturalist
JOHN OLIVER LA GORCE
Associate Editor of the National Geographic Magazine
GEORGE SHIRAS 3D
Formerly Member U. S. Congress, Faunal Naturalist and Wild-Game Photographer

ORGANIZED FOR "THE INCREASE AND DIFFUSION OF GEOGRAPHIC KNOWLEDGE"

To carry out the purposes for which it was founded fifty-four years ago, the National Geographic Society publishes the NATIONAL GEOGRAPHIC MAGAZINE monthly. All receipts are invested in The Magazine itself or expended directly to promote geographic knowledge.

Articles and photographs are desired. For material The Magazine uses, generous remuneration is made.

In addition to the editorial and photographic surveys constantly being made, The Society has sponsored more than 100 scientific expeditions, some of which required years of field work to achieve their objectives.

The Society's notable expeditions have pushed back the historic horizons of the southwestern United States to a period nearly eight centuries before Columbus crossed the Atlantic. By dating the ruins of the vast communal dwellings in that region, The Society's researches solved secrets that had puzzled historians for three hundred years.

In Mexico, The Society and the Smithsonian Institution, January 16, 1939, discovered the oldest work of man in the Americas for which we have a date. This slab of stone is engraved in Mayan characters with a date which means November 4, 291 B. C. (Spinden Correlation). It antedates by 200 years anything heretofore dated in America, and reveals a great center of early American culture, previously unknown.

On November 11, 1935, in a flight sponsored jointly by the National Geographic Society and the U. S. Army Air Corps, the world's largest balloon, *Explorer II*, ascended to the world altitude record of 72,395 feet. Capt. Albert W. Stevens and Capt. Orvil A. Anderson took aloft in the gondola nearly a ton of scientific instruments, and obtained results of extraordinary value.

The National Geographic Society-U. S. Navy Expedition camped on desert Canton Island in mid-Pacific and successfully photographed and observed the solar eclipse of 1937. The Society has taken part in many projects to increase knowledge of the sun.

The Society coöperated with Dr. William Beebe in deep-sea explorations off Bermuda, during which a world record depth of 3,028 feet was attained.

The Society granted $25,000, and in addition $75,000 was given by individual members, to the Government when the congressional appropriation for the purpose was insufficient, and the finest of the giant sequoia trees in the Giant Forest of Sequoia National Park of California were thereby saved for the American people.

One of the world's largest icefields and glacial systems outside the polar regions was discovered in Alaska and Yukon by Bradford Washburn while exploring for The Society and the Harvard Institute of Exploration, 1938.
